Nipun Kumar

Faridabad, Haryana | nipun.kumar@example.com | +91 98765 43210 | linkedin.com/in/nipunkumar-ds | github.com/nipunkumar-ds

PROFESSIONAL SUMMARY

Data Science enthusiast with hands-on experience in machine learning, data analysis and visualization. Skilled in Python, SQL and scikit-learn, with projects in predictive modeling and NLP. Looking for a Data Scientist / Data Analyst role to solve real business problems using data.

TECHNICAL SKILLS

Languages: Python, SQL, R
Libraries: Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn, TensorFlow, Keras, NLTK, spaCy
Machine Learning: Linear Regression, Logistic Regression, Random Forest, XGBoost, K-Means, NLP, Deep Learning
Tools: Jupyter Notebook, Git, GitHub, Power BI, Tableau, Excel, Streamlit, MySQL

EDUCATION

B.Tech in Computer Science (Data Science), 2021 - 2025
ABC Institute of Technology, Delhi NCR | CGPA: 8.4 / 10

EXPERIENCE

Data Science Intern - XYZ Analytics Pvt. Ltd. (Jun 2024 - Aug 2024)

- Cleaned and analyzed a dataset of 50,000+ customer records using Pandas and SQL.
- Built a customer churn prediction model with Random Forest, achieving 87% accuracy.
- Created interactive dashboards in Power BI that reduced weekly reporting time by 30%.

PROJECTS

House Price Prediction

- Trained Linear Regression and XGBoost models on housing data; improved R2 score from 0.71 to 0.86 through feature engineering.
- Deployed the model as a web app using Streamlit.

Sentiment Analysis of Product Reviews

- Processed 20,000 reviews using NLTK and TF-IDF; classified sentiment with Logistic Regression (84% accuracy).

Sales Forecasting Dashboard

- Analyzed 3 years of retail sales data and visualized trends with Matplotlib and Tableau.

CERTIFICATIONS

- Machine Learning Specialization - Coursera (Stanford / DeepLearning.AI)
- Python for Data Science - IBM
- SQL for Data Analysis - Udemy
